

StV Fine Arts

What we did in Wintersemester 2023/24

General:

We answered emails and offered individual counseling for students and applicants.

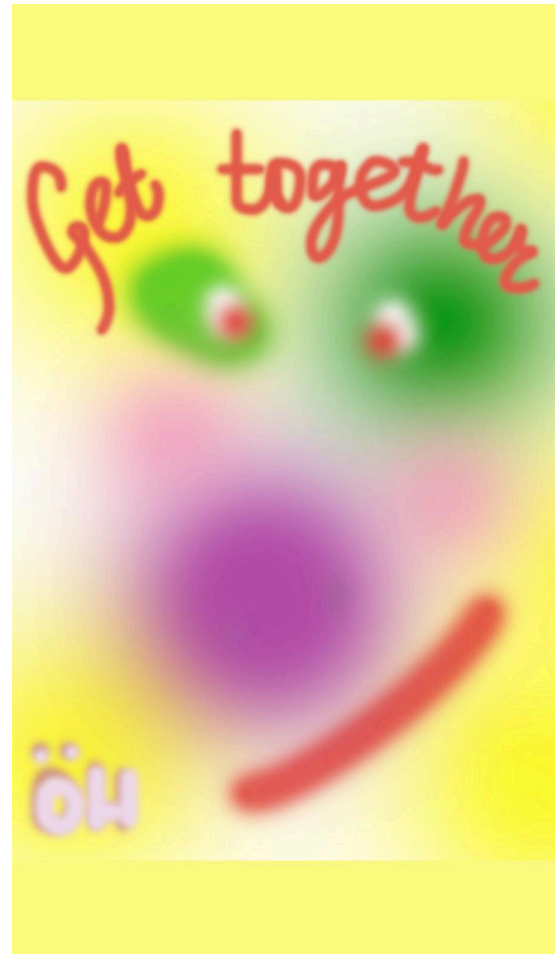

We had two meetings of the Stv

We had meetings with the institute of fine arts and several teachers of the institute of fine arts to talk about and solve problems.

We fight for you that informations in Campus Online are complete and correct according to the law.

19.10 - Get together Event

We had a welcoming and informational event to the beginning of the new Semester. We had some free drinks, some ÖH-bags for the students, answered questions and provided informations about the ÖH and the Academy.

16.11 - Die Laube

The house/shelter was built at Kurzbauergasse. We support the project with the amount of 900 euro. https://www.instagram.com/die_laube/. Die Laube is a pavilion in the yard of Kurzbauergasse which is open for all students and which was built as a project of students of several classes of Kurzbauergasse.

Flash System

We received the old flash-system from the photo-studio and provide it for students. We also bought some new stands for the flashes.

Gremia Work:

We were part in the habilitation process of Thomas Freiler

We were part in the finding commission for Theorie und Vermittlung von Gegenwartskunst

We sent students in the finding commission for Diaspora Aesthetics

We worked in the Curricular commission Fine Arts to restructure the whole curriculum. The goal is to make the curriculum more transparent, to make it clear if classes are consecutive and to strengthen the theory in fine arts (don't worry, not too much) and to update the meanwhile 20 year old curriculum.

We provide an Excel Sheet to calculate the study progress. The Excel sheet was developed by Michael Genner from ZID and updated by Iklim Dogan and us.
